CHM Autism Registry Enrollment

If you are interested in learning more about our current and future services you may sign up for our autism registry. Fill out this quick on-line form and you will be added to the CHACE list-serve. As a member of our registry you will be notified about up-coming events, treatment opportunities, and research opportunities. go to [http://www.childrensmdmc.org/default.aspx?id=1255&sid-1](http://www.childrensmdmc.org/default.aspx?id=1255&sid-1)

Children’s Hospital of Michigan is pleased to announce the development of our Early Intensive Behavioral Intervention Preschool Program. We are now accepting pre-enrollment applications. The program consists of a full-day, year-long placement where children with autism ages 2-6 years will receive Applied Behavior Analysis in a one on one setting with direct access to a general education preschool. Each child’s needs’ will be assessed and an individualized plan will be developed to meet those needs. Contact Geralyn DeBoard to reserve your child’s spot.
